Dear Valued Customer

Atos Medical – Price increase

After carefully analysing increasing materials and overhead costs we are writing to inform you of a necessary forthcoming price increase.

From Monday 3rd October 2022, Atos Medical will raise prices on most of our range by approximately 4%.

This is the first increase we have implemented since February 2020 and has been kept in line with consumer price index (CPI) increases during this time. Furthermore, our logistics and freight costs have increased substantially throughout the duration of the current COVID-19 pandemic which we can no longer sustain. Please be advised of increases to our freight charges and changes to our returns policy.

These changes mean that we can continue to maintain the superior standard of our products and services. Formal price lists which will be distributed in the coming weeks.

Should you have any additional questions please do not hesitate to contact our customer service team or your local area representative.

Kind Regards
